WHAT IS ABN?

Assist Basketball Network started as a camp management and professional scouting firm which began building Supercamps in Europe in 1992. In 1994, ABN brought its first USA team (Free Agents) to play at one of their Supercamps and find jobs. ABN has been sending teams to Europe since. In the late 1990's ABN worked the European end of receiving nearly 50 teams from other tour operators to create super tournaments, and the start of the International Hoops Challenge began, The philosophy of ABN is to educate young men and women in history, culture, international politics, and global awareness by immersing them in new cultures. Our tours go much beyond playing basketball: our tours shape character and attitudes for lifetime benefits.
